Using an Open-Top Bier Drawn by a Black Range Rover  
or the Coffin Inside a Black or a White Range Rover Hearse \*

About this unique service and why I only require a set donation to charity for its use

For those who in life enjoyed four-wheel-drive vehicles and/or the countryside, a Range Rover hearse would be a perfect statement of this for their final journey.

A black Range Rover that draws a black custom-built open-top bier, on which the coffin rests, is used to convey the loved one to their final resting place, leaving a lasting memory for family and friends attending.

This is the only Range Rover hearse of its type operating in England. The open-top bier can be embellished with floral tributes, photographs and other personal items. Even a particular flag can be draped over the coffin if required.

\* If the exterior length of the coffin is 5' 6" or less, the loved one will be able to be conveyed inside the Range Rover hearse on a specially constructed deck. The deck is situated in the middle of the vehicle, as in the below photograph. The casket and the surrounding area can be embellished with floral tributes, photographs and personal items. Further, if using this option, there is a choice of having either a black or a white Range Rover hearse.

I deem it an honour and a privilege to convey a loved one to their final journey on behalf of a family, and for that reason I cannot accept payment in return for this service. Instead I ask that a charitable donation is made in the loved one's memory to [Torbay Bikers for Kids \(Registered Charity No: 1200973\)](#) who raise funds to purchase items that help improve the lives and/or education of children who are disabled or severely ill, living in Torbay and the surrounding area.
